

HOW TO INSTALL

PHOTOSHOP ACTION

Requirements

Software

Adobe Photoshop

Version

CS3, CS4, CS5, CS6, CC, the latest CC

Language

Any languages

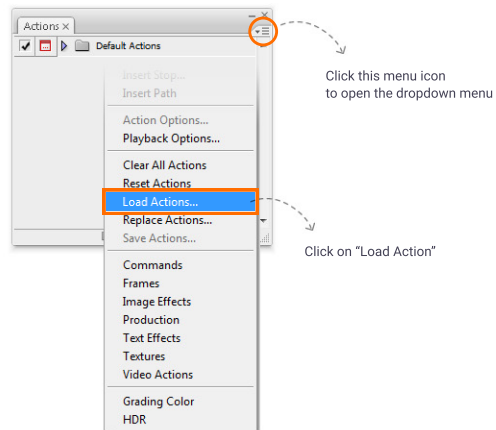

1. Run your Photoshop

2. Open the action panel

To open the panel, go to **Menu Bar**, then select **Window > Actions**

3. Load the Action

On the top right corner of the action panel, click the menu icon to open the dropdown menu, then click on "Load Actions"

4. Select the action file (.atn)

Navigate to the downloaded file and select the **.atn** file you wish to install.

5. The action will now appear in the action panel and ready to use.

Make sure you have unzipped the downloaded file before doing this step.
